Two TVE2 startup companies celebrate success

By San Diego Source staff report

Thursday, October 1, 2015

Two technology startup companies at the Temecula Valley Entrepreneur's Exchange (TVE2) incubator have been recognized for their success.

Inviscid Software LLC recently completed the InSoCal Connect Springboard program and was chosen as a San Diego Venture Group (SDVG) 2015 "Cool Company."

RankedFame Inc. was selected to pitch at the Riverside Tech Coast Angels event, showcasing entrepreneurs looking for funding for their products and ideas.

Inviscid Software developed TotalABA, a cloud-based solution that automates the billing, scheduling, and clinical documentation for clinics that provide autism therapy, called Applied Behavioral Analysis (ABA) clinics. Its mission is to simplify the business side of running an ABA clinic, so that therapists can concentrate on helping children, not the paperwork.

RankedFame Inc. is a video sharing platform for aspiring talent to gain exposure and recognition on a local and national level. The company has been selected through a competitive application process to "Pitch the Angels" in Riverside, an opportunity to present RankedFame to angel investors.
